

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

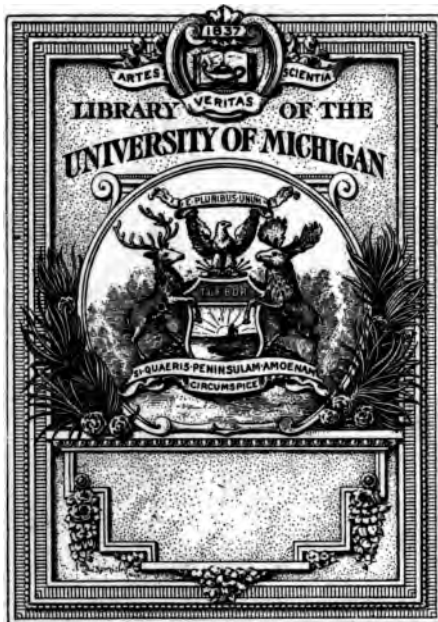

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

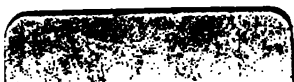

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. ## PREFACE.

This list is essentially a check list. The primary purpose of a check list is to serve as a basis for collecting, by means of purchase or exchange, or for making a permanent record of the collections, by means of cataloging or more elaborate bibliographical analysis. A check list, to be useful, should be compact, direct and as accurate as possible. A check list is not a bibliography; it is merely a tool by means of which the more elaborate compilation may be effected. A brief explanation of the present check list may avoid any misconstruction of the intention of the compilers.

The titles of the territorial and state journals are given in full. No analysis has been made of the territorial journals, for, while they do contain messages and annual reports to some extent, it is doubtful whether these documents were issued separately. While this analysis might have been made without overstepping the proper bounds of a check list, the compilers decided that if the balance of such analysis were to be maintained for the remainder of the check list, the resulting bulk would defeat the usefulness of the list to the ordinary user.

In addition to giving the titles of the state journals, the contents of the appendices have been given. The appendices were the beginning of the present series entitled "Public Documents." In several years there were discrepancies and irregularities in the binding and numbering of the appendices. These it was possible to indicate only by a definite description of the volume, both as it appears and as it should have appeared. Moreover, the use of the serial number in the tabulation of the department reports is made clearer, it is believed, by giving the contents of the volumes to which the number refers.

The adoption of the serial number makes it possible to arrange only completed series in the usual manner. This ar-

rangement has been followed in the present instance in the territorial Council and House journals. The state publications have been arranged in one chronological sequence for the three series of publications, viz., the Senate and Assembly journals and documents for one legislature are followed by the same publications of the next legislature, and so on. By attaching the serial numbers to the volumes librarians will be able to determine where volumes are missing, and they will not be dependent, in arranging the volumes on the shelves, upon the uncertainty of binders' titles.

In the department lists no attempt has been made at bibliographical detail. Had this been done, all the editions in which a document has appeared would have been noted, and in Wisconsin where, at various times, documents have been printed in six different languages, viz., English, French, German, Swedish, Norwegian and Welsh, it was feared that the check list, as a first list, would lose in practical value by assuming any character beyond that of a mere check list.

The publication of the different agricultural societies are not included in this list, but will be included in a special index and check list for such material. There are a few other publications of societies which are not noted. This check list is primarily a list of documents which have appeared at some time in the bound public documents set. Other lists will be issued from time to time as the demand for them arises. The present list is in no sense complete, and all that is hoped for is that it will supply the present need in a practical manner.

The Wisconsin law relating to the distribution of documents is as follows:

CATALOGUING AND DISTRIBUTION OF PUBLIC DOCUMENTS AND MAINTENANCE  
OF A LEGISLATIVE REFERENCE ROOM.

Chapter 168, laws of 1901, as amended by chapter 238, laws of 1903. Section 373c. The Wisconsin free library commission is hereby authorized and directed to make an explanatory check list of the several public documents of the state, including all reports, circulars and bulletins issued by the various state departments, boards and commissions, and to publish this list, and supplementary lists as they may be required, in such form and with such notes as to show the scope and purpose of such publication; to assist state officers, members of the legislature, and other citizens who are studying the growth and development of the

affairs and institutions of this state, also to assist the public libraries in the state, in completing files of such publications and in so arranging them as to be of use to citizens of their several localities. The said free library commission is also directed to prepare and print catalog cards of said public documents for the card catalogs of the said public libraries, and for the executive and administrative departments of the state.

Section 373d. The state printer is hereby directly promptly to deliver to the secretary of the commission, as printed, three copies of each message, report, journal, legislative bill, bulletin, circular, or set of bound public documents of whatever character, printed at the expense of the state.

Section 373e. The secretary of said free library commission is hereby directed to ascertain and report to the state superintendent of public property what public libraries, in the state, containing more than one thousand volumes, including the libraries of normal schools, academies and colleges, can suitably care for and advantageously use, public documents printed by the state. The secretary of said commission shall designate such libraries as depositories of state documents and shall, from time to time, prepare lists of such depositories for the use of the state superintendent of public property. The state superintendent of public property is hereby directed to furnish each library which is designated as a depository of state documents one set of public documents, as they are published, and also copies of such other reports and documents, printed at the expense of the state, as may be of general interest and supplied to him in sufficient numbers to meet such demand.

## CHECK LIST OF PUBLIC DOCUMENTS.

## ATTORNEY GENERAL.

The office of attorney general was created by sec. 1, art. 6, of the constitution of 1848. Formerly the law required no report, except on request and upon business pertaining to the duties of the office. Opinions delivered by the attorney general at various times are printed either in the text or in the appendices of the journals. The only annual report of which a record has been found previous to 1902 is that of 1854.

### BOARD OF SUPERVISION OF CHARITABLE, PENAL AND REFORMATORY INSTITUTIONS.

#### [Reports.]

By sec. 22, ch. 298, laws of 1881, the state board of charities and reform was relieved of all duties pertaining to the six state institutions, and these duties were transferred to the board of supervision. By provision of the act establishing the board the five members act as a commission of lunacy, and maintain and govern the following state institutions: Wisconsin state hospital for the insane, northern hospital for the insane, Wisconsin industrial school for boys, Wisconsin institution for the education of the blind, Wisconsin institute for the education of the deaf and dumb, Wisconsin state prison. The board of supervision was abolished pursuant to ch. 221, laws of 1891, when it was merged, together with the state board of charities, into the board of control.

### BOARD OF CHARITIES AND REFORM.

Ch. 136, laws of 1871, gave this board the power to investigate and supervise the whole system of charitable and correctional institutions. Sec. 22, ch. 298, laws of 1881, however, relieved the board of all duties relating to the six state institutions. Ch. 233, laws of 1881, enlarged the powers of the board in regard to the care of the chronic insane by counties.

#### [Reports.]

The board reported annually from 1871 to 1882, inclusive, and biennially until 1890, inclusive. In 1890 the board was abolished, and its powers were transferred to the board of control. The reports are printed both separately and in the documents.

## BOARD OF CONTROL.

The board of control was organized June 30, 1891, pursuant to provisions of ch. 221, laws of 1891. By this law both the former state board of supervision and the state board of charities and reform were abolished and their duties transferred to the state board of control. In April, 1895, the legislature repealed the organic law by which the original board was created, increased the membership of the board (ch. 202, laws of 1895), and made other changes affecting its administrative functions.

## [Reports.]

The reports contain the reports of the officers of the various penal, charitable and reformatory institutions, viz.: State hospital for the insane (Mendota), northern hospital for the insane (Winnebago), institute for the education of the deaf and dumb (Ray), institute for the education of the blind (Janesville), industrial school for the blind (Waupun), state public school for the blind (Oshkosh), state school for the feeble minded (Glappewa Falls), state reformatory (Green Bay).

**GEOLOGICAL SURVEY.**

The survey was first authorized by law of 1853, and the first report was made by Edward Daniels in 1854. James G. Percival, who was given charge of the work in August, 1854, made two reports. After his death the legislature, by act of March 3, 1857, made provision for continuing the survey, and it was carried on by Hall and Whitney until interrupted by the war. After the war the work was continued by John Murrish, and later by T. C. Chamberlin. (Blake, *Progress Geol. Surveys in Wis.* in Trans. Wis. Acad. Sci., v. 9, pt. 1; 225-231.)

## GOVERNOR.

## [Annual Messages.]

Messages usually appear in each of the following forms: separately, in the Documents, and in the Senate and Assembly Journals. As published in the volumes indicated by the serial number below, the messages are generally duplicates of the separate editions. They are to be found also in the text of both Senate and Assembly Journals. Besides annual messages there are special and inaugural messages. It is but recently that inaugural messages (here called "incoming messages") have been printed. Special messages may be found in the text of the Journals, in the appendices to the Journals, and in separate prints. No list of them is given in this publication, but those which have been included in the appendices are indicated by title.

## COMMISSIONER OF INSURANCE.

By ch. 56, laws of 1870, approved March 14, 1870, the secretary of state was constituted commissioner of insurance ex-officio: by sec. 32 he was instructed to establish in his office a department to be called the "Department of Insurance," the expenses of which were to be paid out of fees received from the several companies. In 1878 an act was passed creating a separate department and a separate commissioner.

## [Reports.]

The reports contain statistics relating to insurance companies doing business in the state, recommendations in regard to the work, and remarks relating to various companies. They have been printed both separately and in the documents: annually in one volume, 1870-82; biennially in one volume, 1884-94; annually in two volumes, 1895-7; annually in three volumes, 1898 to date.

## REGENTS OF NORMAL SCHOOLS.

The board of regents was organized July 15, 1857, pursuant to an "act for the encouragement of academies and normal schools," approved March 7, 1857. The act is printed in full in the first report.

Formerly there were no separate normal schools as they now exist. There were, however, normal departments in colleges similar to Beloit and Lawrence, which reported to the regents and were given credit for their work.

## [Reports.]

The reports were made annually from 1857 to 1882, inclusive; biennially, from 1884 to date. They were printed in the following forms: separately, in the documents, in the journals, and in the reports of the superintendent of public instruction.

## NORTHERN HOSPITAL FOR INSANE.

[Located at Winnebago.]

This institution was established by act of March 10, 1870. The first report was made in 1871, and was practically a report of the building committee. From 1871 to 1880, inclusive, the reports have been issued annually, and printed both separately and in the documents. From 1881 to date, they are published in separate form only. Matter relating to the hospital may be found in reports of the board of charities and reform, the board of supervision and the board of control.

## SECRETARY OF STATE.

The office of secretary of state was created by the constitution of 1848. Art. 6, sec. 2, provides that the secretary of state shall be ex-officio auditor. The secretary's report always contains a statement of the funds, the revenues, the public expenditures and the valuation of property of the state. It often includes as well assessment and tax apportionment, besides vital statistics and statistics relating to railroads, agriculture, crime, exempt property, insurance, elections, corporations organized, etc. It also embraces the report of the superintendent of public property, beginning with the term of 1884-6 (in accordance with ch. 159, laws of 1883), and the report of the commissioner of public printing after 1874 (in accordance with ch. 32, laws of 1874). Since 1848 reports have been printed in the following forms: separately, in the documents, and often in the journals.

## [Blue Book.]

The first blue book (then called "Legislative Manual") was issued in 1853, the next in 1859. It was published annually thereafter, under various titles, until 1883; after 1883 it became a biennial publication. Until 1867 it was compiled under the direction of the clerk of the Senate and Assembly; after 1867, under the direction of the secretary of state. The name "Blue Book" was first applied in 1879. It contains rules for the legislature, names of members, statistics relating to elections and miscellaneous matter relating to state institutions, etc.

For fuller information see *List of publications of the State Historical Society of Wisconsin, 1850-96*. (This will soon be brought up to date.) Separate articles and synopsis of publications are given in this pamphlet. Since the publication of this list a few important publications have been printed among which may be noted: Newspaper catalogue, 1898; Memorial volume, 1901; Bulletins of information, 1897-99, 17 nos.

## STATE HOSPITAL FOR THE INSANE.

(Formerly Insane Asylum. Located at Mendota.)

The first three reports are reports of building commissioners. Those of the trustees begin with 1860 and are printed annually to 1882, inclusive; biennially, from 1884 to date. They have always been printed both separately and in the documents. Reports of the institution after 1880 are found in the reports of the board of charities and reform, the board of supervision, and the board of control.

## STATE TREASURY AGENT.

This office was created by ch. 176, laws of 1867. (See also rev. statutes, 1898, ch. 67. The agent issues licenses to hawkers and peddlers.

As far as can be ascertained no reports have been issued, but a pamphlet, containing laws of Wisconsin relating to hawkers and peddlers, with abstracts of decisions of the United States supreme court, and various state courts, was issued in 1875. This was reissued in 1901 and the matter brought up to date.

## STATE UNIVERSITY.

The reports of the regents of the university were issued annually from 1848 to 1882 inclusive, biennially from 1884 to date. Many of them contain reports upon the work of the experiment farm (1868-82), and some of the early reports contain also the catalogue of the university. Since 1848 they have been printed in the following forms: separately, in the documents, and in the journals.

.....	1900	34	The establishment of a school of commerce in the university of Wisconsin; by Charles Kendall Adams. 13 pp.

The university has printed from time to time a very large number of miscellaneous pamphlets and circulars, such as university extension syllabi and addresses delivered upon various occasions. The catalog of the university is printed annually. Many of the early numbers appear in the report of the board of regents. All these publications will be fully described in the forthcoming bibliography of Wisconsin which the state historical society has in preparation.

## SURGEON GENERAL.

## [Reports.]

The reports of the surgeon general contain names of surgeons, their rank, etc., statistics of disease and death in the army, suggestions as to prevention of disease, etc. They are printed in both the documents and the journals.

**TAX COMMISSION.**

A tax commission was appointed pursuant to ch. 127, laws of 1866, but as far as can be ascertained it made but one report, which was printed separately. (Report of tax commission, 1867, 11 pp.) The present tax commission was organized in accordance with ch. 340, laws of 1897, and ch. 206 and 322, laws of 1899. It was designated as a temporary commission to examine into the state system of taxation, and to devise means to remedy existing conditions.

**[Reports.]**

The reports are printed biennially and in separate form: they do not appear in the documents or the journals. The first report was made in 1898, although the first regular report is that of 1899-1900.

**TREASURER.**

The office of state treasurer was created by sec. 1, art. 6, of the constitution of 1848.

**[Annual Reports.]**

Annual reports of the state treasurer contain a complete statement of receipts and disbursements of the several funds of the state during each year. Much of this material is also to be found in the report of the secretary of state. In 1870 the office of bank comptroller was abolished, and from that time on the reports of the treasurer contain a report upon the condition of the banks of the state. Since 1848 they have been printed in the following forms: separately, in the documents, and in the journals: from 1884 to date they have been issued biennially. The reports contain little matter that is worthy of note, except that of 1897-98, which has in it valuable material on the subject of taxation of corporations.

The state treasurer has also issued separately semi-annual statements of the condition of banks in the state. Since January, 1900, these have been merely abstracts because of similar work done by the bank examiner.

## STATE VETERINARIAN.

The duties of this office are defined by ch. 470, laws of 1885, and ch. 76, laws of 1887. The veterinarian investigates cases of contagious diseases of animals in the state.

## [Reports.]

The reports contain the recommendations of the veterinarian and accounts of his work. The first two reports were not printed, but much of their contents was summarized in the third report.
